Obliterate

Entrails

Day of terror, day of wrath.
Everything will die tonight.
A world in ruins, Hell's aftermath.
Infernal Death in sight.Die under my command.
Everyone will die.
War and bloodshed.
The world will burn.Dominate!
Terminate!
Obliterate!A world in ashes, devastation.
You can't hear one breath.
Total striking obliteration.
Bestial fucking Death.Die under my command.
Everyone will die.
War and bloodshed.
The world will burn.Dominate!
Terminate!
Obliterate!
