## She's Beautiful

## **Darius Rucker**

Have you ever seen
A prairie wind make a wave

On a wheat field

Bringing needed rainHave you ever seen

A mama stop a baby's cry

With just the touch

And a whisper of his nameWhen she looks at me

That's what I seeShe's beautiful like that

Like a winter rose, snow on the ground

I was blessed the day I found herI'm one lucky man

'Cause the more I know, the more I need her

The more I love, the more I see

Her heart is a shining starShe's beautiful like thatHave you ever seen

A purple sky, sun coming up

Bringing new life

To everything it shines on Have you ever seen

A couple after fifty years

Laughing and holding hands

Still going strongWell, the reason why

I'll love her 'til the day I dieShe's beautiful like that

Like a winter rose, snow on the ground

I was blessed the day I found herI'm one lucky man

'Cause the more I know, the more I need her

The more I love, the more I see

Her heart is a shining starShe's beautiful like thatThe sound of a church bell

The road that leads back home

An unspoken promise

You'll never be aloneShe's beautiful like that

Just like a winter rose, snow on the ground

I was blessed the day I found herI'm one lucky man

'Cause the more I know, the more I need her

The more I love, the more I see

Her heart is a shining starShe's beautiful like that

She's beautiful like that

She's beautiful like that
