

April Fool

Soul Asylum

Advisory - the following lyrics contain explicit language:

Quittin' after one more last one
Tired of playin' the clown
If I want your opinion, I'll ask you
I can get myself down Night drivin' without headlight
Wearin' sunglasses too
Lookin' good but sure don't feel right
Anything to be cool Doin' hopscotch with my legs tied
Jumpin' rope in wet cement
Black leather in midday sunshine
All your mother's money's spent Doin' time on the metal detector
Like to drown in your pool
Coverin' up everything that's defective
Anything to be cool A burning heart could be so cool
Won't you be my fashion victim?
Come on, I'm an April fool for you Holdin' on to what's left of real life
Anything to be cool
Anything to be cool
Anything to be cool
Anything to be cool Burning heart like an April fool
Won't you be my fashion victim?
Come on, I'm your April fool
I'm a mid-spring snowfall, joke's on you
I'm an April fool for you I'm an April fool for you
I'm an April fool
I'm an April fool for you
I'm an April fool
I'm an April fool for you
I'm an April fool
