Etiquette

Kate Martin

Creation sings a melody from the depths of me
Iâ€™ll never comprehend just why
It was good idea to be in the war
Iâ€™m the only whoâ€™s still alive
And watch the history pass me by
Iâ€™m swimming with the great white sharks
And running with the bulls

I had a dream that you were like a child
And we were somewhere else
The moon goes up
The stars come out
And your senses come to life

Hope you find what youâ€™re looking for
With your brand new woman at your motherâ€™s door
I think itâ€™s best for you to stay away
So we can live our lives
And have our hearts at bay
The lie was never safe, I caught you out
I didnâ€™t speak to you for a month and a half
If you turn around then Iâ€™ll turn you into stone
So you need to walk away
And let the city burn
