Today

Donots

Good morning, my faint heart
Here comes the caffeine injection
Get off to a flying start
Let face it, retrace it
Put my words into action
Cause it time to play my part
Right the wrong
Don play along
With everyone
Cause today belongs to me
Hey small life, I waiting
And tired of hesitating
So give me an overdose
Of good luck cause I stuck
Between boredom and hating
I know how the true story goes
Right or wrong
Don sing my song
For everyone
Cause today it just for me
Somehow
Remember my name
