Fall

Devendra Banhart

Follow, catch since once burned your bread
But when the night comes
Light of match will catch, lay low
Leave or sing, so long
Widow spreads like cornfields in fall
She come, night come
She leave no trace, she don't leave her roll
Like cornfields in fall
So long friend, I know finally
Would you lie with me?
And hello, singer, warm ring like hell

Won'tcha sing for me?
So long snake, you're still old
So long snake, you're still old
So long snake, you're still old
So long snake, you're still old
So long snake, you're still old
So long snake, you're still old
So long snake, you're still old
So long snake, you're still old
