

# Remind Me (Matvey Emerson Remix)

Conrad Sewell

Please lay a little longer  
Weight is on my shoulders, holding me down  
Some days, it can't get much darker  
Feel it more than ever  
When you're not around When I think about love, you are right beside me  
I think about us, you will always find me  
When my heart is lost, I know that you'll guide me  
I think about all the little things that still remind me These days, reflections like a stranger  
You are so much braver, braver than me  
Save me, save me from my demons  
Teach to defeat them  
And lead me to peace When I think about love, you are right beside me  
I think about us, you will always find me  
When my heart is lost, I know that you'll guide me  
I think about all the little things that still remind me  
When I'm living like there's nothing left to loose When I turn my back on everything I knew  
When I settle for the silence in the room  
Remind me  
Remind me  
Remind me  
Remind me of you I think about love, and you are right beside me  
I think about us, I know that you'll find me  
When my heart gets lost, I know that you'll guide me  
I think about all the little things that still remind me  
Oh all my life  
You'll remind me
