Are You Down

Pepper

You seem to follow me down
You seem to follow me downOh girl, you got a fuse at the end of your heart
So once I light it up, I dont think it will stop
You got a reputation for what youre not
And I dont really mind that, mind thatDont wanna be your man, dont wanna be your daddy
I aint your boyfriend, I aint your caddy
You got to keep it real
If you wanna put it on me, on me, on meSo light those candles over me
She never wears her, never wears her underwearAre you down, wanna mess around?
Well do it underground, wont let you down, hey
Are you down, can we mess around?
Are you down, dont let me down
So, are you down, are you down, are you?Its getting real dark on the edge of your mind
Ive never seen a smile so hard to find
Letting all the alligators waste your time
But I really dont mind that, mind thatI wanna walk you home at the end of the night
And throw you in the pool 'cause youre so uptight
I wanna fool around till your clothes are dry
And I dont think youll mind that, mind thatSo lets break out and fold up the sun
Too late to stop it now, here I comeAre you down, wanna mess around?
Well do it underground, wont let you down, hey
Are you down, can we mess around?
Are you down, dont let me down
So, are you down, are you down, are you?So dont cry if youre lonely, baby girl, come and show me
I dont mind if you tease me, having fun is so easy
Please dont lie when you kiss me
Dont pretend when youre with me
I know girls can be trixy when theyre downSo are you down, wanna mess around?
Well do it underground, wont let you down, hey
Are you down, can we mess around?
Are you down, dont let me down
So, are you down, are you down, are you?
