Justice

Saxon

We lay our case before you
Let your hammer fall
Tip the scales of justice
Liberty for all
Do you stand for freedom
Do you stand for justice
Do you stand for anything at all
We have the power
We have the courage
To make the mighty fall
Hear the voice of reason
Let your hammer fall
You're the judge and jury
Gimme justice, give me justice
Justice
When you free the guilty
The innocent remain
Can you hear your conscience
Can you see the pain
Do you have the mercy
Do you have the passion
Do you have integrity at all
We have the power
We have the courage
To make the mighty fall
Hear the voice of reason
Let your hammer fall
You're the judge and jury
Gimme justice, give me justice
Justice, gimme justice
Take the oath of honor
On the Bible swear
Fight for truth and justice
Do you really care
Will you fight for freedom
Will you fight for justice
Will you fight for anything at all
We have the power
We have the courage

To make the mighty fall
Hear the voice of reason
Let your hammer fall
You're the judge and jury
Gimme justice, give me justice
Justice, gimme justice
