Work Experience

Subhumans

Working for money and the system too
Thought the dole queue made you worthless
Now you're slaved to a public machine
Getting somewhere...is this what they mean?
Worthless....not enough money!
[Chorus:]
I tried to work for money
Than just for something to do
But then why bother working at all?
Do you want to stay totally normal?You wanted more and what did they say?
You'll never sell yourself to anyone
Come back and try in six months time
Don't you know there's a social decline?
Politics - don't it make you mad?[Chorus]You said you'd look for another job
Well try it sonny you won't get far
Do as you're told and stop complaining
Being conned is part of the training
Crash course - learning how to lose
