Half Down

Treble Charger

Spoken: Am I gonna roll?
1, 2, 3
Don't ask me why, I don't know
I can't explain it in words you can say
Probably lie and stay low
I'll just ignore it and hope it all goes away
You play along half the time

Turn it half down on the radio
If there's a flaw in your lines
I'm not convincing enough to just let it go
I don't believe that you've tried
I've listened to it all, you're still putting me down
Haven't you gone way too far?
Said that it's fine what you do to me now
I said that it's fine.
