## **No Time Soon**

## **Gnarls Barkley**

This could be one of those days When we must go our separate ways It's good for you to be out of my sight 'Cause you never know, you might And I carry this, it's heavy And I miss you already You were perfect, babe My time will come, yours too I barely go before you I hope you live forever Or maybe we can go together It'll be perfect babe And I carry this, it's heavy And I miss you already You were perfect, babe Perfect
