[Matt Corby](#)

[Verse 1]

All day blazed I wonder
If through grace I find the new high I wanted
Could it be you?[Verse 2]

No bible no more
I don't have faith like I did before

I gave it enough
I saw the fallen white doors
Oh where I stumbled to and get it wrong
Oh and it's said and gone

I wait with you
Fading out to silence[Verse 3]

Blame it on your rage and sombre nature
If the violent conversation gets the best of you
And over graves we'll all get laid and from the babies
Some will teach us what the hell our souls were born to do[Outro]

Oh I was never lost I only chose to never go home
Oh I was never lost I only chose to never go home
Oh I was never lost I only chose to never go home
Oh I was never lost I only chose to never go home
