

# Fly (Remix)

## Jump5

Fly-why, fly-why,  
Fly-why, fly-why, flyIt's like I woke up and my day belongs  
And nothing goes right hall of fame  
It's like a simple song and  
I can't seem to get it straightBut I'm in the world premier  
And I just can't get through the lines  
And everything I touch goes wrong,  
No matter what I tryFly away above the clouds up in the sky  
Oh why, oh why  
So I don't worry 'bout the little things in life  
'Cause it's my time to fly  
And I know they cannot hold me down  
Fly-why, fly-why,  
'Cause they cannot hold me down,  
Fly-why, fly-why, fly-whySome times are crazy in the world  
It's ever weirder than it sounds  
The world is my missed time  
Things are easier I've foundAll the world's stage  
I've just got the starring role  
The mountain mass in front of me  
Seems like a little stoneFly away above the clouds up in the sky  
Oh why, oh why  
So I don't worry 'bout the little things in life  
Cause it's my time to fly tonightI know sometimes it's hard to walk  
When being knocked aroundBut circumstances, state of mind  
Don't live life on the groundI just want to  
Fly away above the clouds up in the sky  
Oh why, oh why  
So I don't worry 'bout the little things in life  
Cause it's my time to fly tonightIt's my time, my time to flyFly away above the clouds up in the sky  
Oh why, oh why  
So I don't worry 'bout the little things in life  
Cause it's my time to fly tonight and  
I know they cannot hold me down  
Fly-why, fly-why,  
'Cause they cannot hold me down,  
Fly-why, fly-why, fly-why
