

# Shadows

## Breathe Carolina

Your body was the one thing I wanted  
You bit your bottom lip, I felt it in my bones  
I jumped out my chest, I was haunted  
I had to shake it off, when can we be alone? How'd you get me up against the wall?  
So I, I never thought that I could take the fall  
And now I want it all Are you shadows in the dark there too  
Run my fingers through your hair  
Picture every part of me is part of you  
You're where I want to go  
Are you shadows in the dark there too  
Run my fingers through your hair  
Picture every part of me is part of you  
You're where I want to go Your name on the tip of my tongue tastes  
Like smoke and you fuck so incredible  
You slip through the cracks in the bed space  
I had you every way, but I woke up alone How'd you get me up against the wall?  
So I, I never thought that I could take the fall  
And now I want it all Are you shadows in the dark there too  
Run my fingers through your hair  
Picture every part of me is part of you  
You're where I want to go  
Are you shadows in the dark there too  
Run my fingers through your hair  
Picture every part of me is part of you  
You're where I want to go All of me is wrapped around you  
They will never hold me like I did  
A thousand suns will stay in love  
Our shadows into one  
Now I want it all Are you shadows in the dark there too  
Run my fingers through your hair  
Picture every part of me is part of you  
You're where I want to go  
Are you shadows in the dark there too  
Run my fingers through your hair  
Picture every part of me is part of you  
You're where I want to go
