

# Whatever (Gabriel Rene Remix)

[Jill Scott](#)

You pulled some tricks out your sleeve last night  
Everything I fantasize about  
You had me climbing up a wall  
How many ways was God called You represented in the fashion of the truly gifted  
You put it down last night  
Knocked me out then had me dreaming 'bout waking up, alright  
Do you want some money baby How about some chicken wings  
Do you want some fish and grits  
I'll hurry and go get it  
Whatever We made a groove last night  
A poignant rocking forth and back alright  
Anything I can do for you  
Just ask sometimes you won't have to I'll be happy just to make you happy  
And that's true  
Oh  
We made powerful Love last night  
Never knew passion could taste so sweet alright  
I made a vow to you  
Everything I do for you is a joy and a gift  
You got my whole life lifted
