Better

Brooke Fraser

Take my shoulder back now
Your head's too heavy for me
Please don't come around here no more
'Cos I asked you to stop
And you wouldn't
[Chorus]I would give anything to make you better
I would give anything to point you to free
I would give anything to help you realise
I loved you 'til it killed me
So my logic wouldn't hurt you
I know you might blame me anyway
Well I'm sorry, I'm so sorry
[Chorus][added]You're not helping yourself to me
I've tried all the things they told me to do
Trying to close up the wounds left open by you
And if I seem doubtful, distrusting.....I am

You said you wouldn't do it again
You said you wouldn't do it again
Anything just to try and help you see
You ain't helping yourself by hurting me
[I would give anything]Time to let you go, time for you to see
[To make you better]You ain't helping yourself by hurting me
[I would give anything]Anything just to try and help you see
[To point you....to free]You ain't helping yourself by hurting me
[I would give anything]Time to let you go, time for you to see
[Oh, anything for you to help you realise]You ain't helping yourself by hurting me
You're not helping yourself
You're not helping yourself by hurting me
