Lullaby

Martina Topley-Bird

Let's take our wine closer to the fire side
No apologies, so much to say
And there is no timeThere's a fairytale
You never learned to read or write
Oyster shell
And you never learned to look insideTake it from me
He and I were winter bees
I fell easily
For visions I'd never see
(Stardust falling from my halo)See there's this fairytale
You never learned to read or write
Oyster pearl
You never cared to look insideI keep it clean
Your fingers press my cheek
You're not like me
My duty speaks and it moves my feetYou don't understand
Just like the rock in my hand
You don't understand
Just like the rock in my handThere's a fairytale
You never learned to read or write
Oyster shell
You never cared to look insideThere's a fairytale
You never learned to read or write
Oyster shell
You never learned to look insideNever cared to look inside
Never cared, never cared
Never cared to look insideNever cared, never cared
Never cared to look inside
Never cared, never cared
Never cared to look inside
