

# Some Broken Hearts Never Mend

[Don Williams](#)

Coffee black, cigarettes  
Start this day, like all the rest  
First thing every morning that I do  
Is start missing youSome broken hearts never mend  
Some memories never end  
Some tears will never dry  
My love for you will never dieRendezvous in the night  
A willing woman to hold me tight  
But in the middle of love's embrace  
I see you're faceSome broken hearts never mend  
Some memories never end  
Some tears will never dry  
My love for you will never die
