Trust In Me

Sweetbird

I see you holding the world in your hands
Why don't you just let it go
I've loved you better than anyone else
Doesn't it show
You've been standing at the window day and night
Just looking at the rain
When a simple conversation might help the situation
Please let me explain

Trust in me, when you feel alone
Trust in me, when you can't go on
If loving me is what you need
Trust in me

Don't make it easy I don't mind
There's nothing left to lose
You just try to see what you see
And I'll be there for you
You've been standing at the window day and night
Just tell me what you see
Sun in the daytime and moon at night, well
That's how easy it should be

Trust in me, when you feel alone
Trust in me, when you can't go on
If loving me is what you need
Trust in me

Trust in me when you feel alone
Trust in me, when your strength is gone
If loving me has the power to heal you
Trust in me

If you need someone to hold you call me
I will be there
And if ever you're in trouble
You need someone to cover you
Come to me baby, you can always trust in me

Get a little closer just a little closer to the bone

When you can't get any closer just a little trust will bring it home
Trust in me, when you feel alone
Trust in me, when you can't go on
If loving me is what you need
Trust in me
