

# Over the Weekend

[Dianne Reeves](#)

Packing my crib and Im taking a trip out of town  
Over the weekend  
Must have a change from the sight of this strange lonely town  
Over the weekendFar from the noise of the crowd  
There must be some place for me  
Where I can shout to the clouds  
Shout that Im freeHigh on a mountain top  
Time and the world will stop, I know what Ill find  
Love uninhibited, nothing prohibited  
If its insane I dont care, let me lose my mindMonday will seem as unreal as a dream in the night  
Over the weekend  
Back on the train I could never explain my delight  
Over the week endWill I have any regrets  
Back in this hole in the wall?  
How long before I could get  
The thrill of it all?I think that I can hold on  
To love when its over and gone  
Ill let the curtain descend  
Over the weekendOh, oh, what a dream, what a time, oh, what a day  
Ooh, love, love, love  
I know, I know, I know  
I know, I knowI wanna shout from the highest mountain top  
Oh, what a night, it was right  
Right here, right now
