

# Wild and Free

## Derek

a fire burns for freedom  
a fire burns for freedom  
the smell of decent is i  
i am standing for the truth  
too long has been denied  
the data of changing is rising  
i hope we realize  
unchained wings let angels fly

chorus

i see ? fields forever  
growing wild and free  
i see marijuana trees blowing in our breeze  
i see .. fields forever growing wild and free  
wild and free

a crime against nations  
a war is .. there is a message  
in the wind for every race  
peace and love we saw  
so let us grow is good for the ..

is good for the soul

chorus

i see ? fields forever  
growing wild and free  
i see marijuana trees blowing in our breeze  
i see .. fields forever growing wild and free  
wild and free

so lost the kiss of death  
deny the tree of life  
stand hypocrisy for so many lies  
corporation greed can only see .. survive by planting weed

chorus

i see ? fields forever  
growing wild and free  
i see marijuana trees blowing in our breeze  
i see .. fields forever growing wild and free  
wild and free

chorus

i see ? fields forever

growing wild and free  
i see marijuana trees blowing in our breeze  
i see .. fields forever growing wild and free  
wild and free

crucified savior to save your face  
demonized nature our saving grace

we got to put to good use  
what the lord has gave  
fruits of the tree herbs of the ?

chorus

i see ? fields forever  
growing wild and free  
i see marijuana trees blowing in our breeze  
i see .. fields forever growing wild and free  
wild and free
