

Not Alone

All That Remains

No moreNo more are the days that I will
Fear for I have found a strength that
None can match and I'll push forwardNever has the blood in my veins
Flowed so fiercely as when I feel
This around me, I am wholeI'm not alone
With the touch of your hand
I am whole againI'm not alone
With the touch of your hand
I am whole againNow I feel the passion burning
This what drives me further strengthens
My resolve to push me further(And I believe, that I am not alone)
I'm not aloneI'm not alone
With the touch of your hand
I am whole againI'm not alone
With the touch of your hand
I am whole againNo more are the days that I will
Fear for I have found a strength that
None can match and I'll push forwardNow I feel the passion burning
This what drives me further strengthens
My resolve to push me furtherI'm not alone
(I'm not alone)
With the touch of your hand
I am whole againI'm not alone
(I'm not alone)
With the touch of your hand
I am whole againI am whole again
I am whole again
