Not Anyone

Black Box

You are not anyone
Don't sadden my lifeYou got to leave on Sunday night
It seems I'll feel all alone
You know the tears are in my eyes
I need some time to let 'em dryI can't keep insisting 'cause I'm going too far
I feel sad and that is just for you
I would keep insisting on these lonely nights
'Cause I just can't get rid of youYou are just not anyone, anyone
I just wanna keep in touch
Don't sadden my life
You are just not anyone, anyone
I don't wanna lose your touch
Don't sadden my lifeI don't know if you're wrong or right
I need somebody to love
You know I'm always on your side
So please don't let it fall apartI can't keep insisting 'cause I'm going too far
I feel sad and that is just for you
I would keep insisting on these lonely nights
'Cause I just can't help but thinking of youYou are just not anyone, anyone
I just wanna keep in touch
Don't sadden my life
I wanna be the one, be the one
I don't wanna lose your touch
Don't sadden my life
