Eyes Wide Open

Ashlee Simpson

I could hear her breathing
No one believed me
No one believed me
I could hear those voices
So deceiving
So deceiving
Cool wind on my face
Cool wind on my face
Do you know how it feels to be afraid?
Lying there frozen with my eyes wide open
And do you know how it feels to find a trace
Of words unspoken with my eyes wide open?
I know your secret
I can feel you calling
I know that you're there
I know that you're there
Just tell me all your memories
I'll keep them alive
I'll keep them alive
Cool wind on my face

Cool wind on my face
Do you know how it feels to be afraid?
Lying there frozen with my eyes wide open
And do you know how it feels to find a trace
Of words unspoken with my eyes wide open?
I know your secret
I heard you, I felt you
I know, so what do you want from me?
Cool wind on my face
Cool wind on my face
Cool wind on my face
Cool wind on my face
Do you know how it feels to be afraid?
Lying there frozen with my eyes wide open
And do you know how it feels to find a trace
Of words unspoken with my eyes wide open?
I know your secret, I know your secret
I know, I know your secret
