

# Eyes Wide Open

Ashlee Simpson

I could hear her breathing  
No one believed me  
No one believed me  
I could hear those voices  
So deceiving  
So deceiving  
Cool wind on my face  
Cool wind on my face  
Do you know how it feels to be afraid?  
Lying there frozen with my eyes wide open  
And do you know how it feels to find a trace  
Of words unspoken with my eyes wide open?  
I know your secret  
I can feel you calling  
I know that you're there  
I know that you're there  
Just tell me all your memories  
I'll keep them alive  
I'll keep them alive  
Cool wind on my face  
  
Cool wind on my face  
Do you know how it feels to be afraid?  
Lying there frozen with my eyes wide open  
And do you know how it feels to find a trace  
Of words unspoken with my eyes wide open?  
I know your secret  
I heard you, I felt you  
I know, so what do you want from me?  
Cool wind on my face  
Cool wind on my face  
Cool wind on my face  
Cool wind on my face  
Do you know how it feels to be afraid?  
Lying there frozen with my eyes wide open  
And do you know how it feels to find a trace  
Of words unspoken with my eyes wide open?  
I know your secret, I know your secret  
I know, I know your secret
