

# For Our Elegant Caste

## of Montreal

We can do it soft core if you want  
But you should know I take it both ways  
We can do it soft core if you want  
But you should know that I go both ways  
We can do it soft core if you want  
But you should know that I go both ways  
Georgie said romantic love is flat  
Georgie said that  
Only for people with  
No real ambition in their life, no life  
But oh, but List Christee disagrees  
She sees into the core of my poor machine  
I'll tell you what she sees  
Frightened cornered Gemini tactics  
And attempts to crack the party code  
There's one more thing  
We can do it soft core if you want  
But you should know I take it both ways  
We can do it soft core if you want  
But you should know that I go both ways  
Our bodies became what has been him  
So really turned off  
Became a freaky permutation  
Something like Voltron  
Then I was wrapped in discourse with the magazine reader  
The mutual conclusion was I'm not worth  
Knowing 'cause I'm probably dead  
So I'm exposed but no solution  
We can do it soft core if you want  
But you should know I take it both ways  
We can do it soft core if you want  
But you should know that I go both ways
