

I Sleep Just Fine

He Is Legend

You made a huge mistake
You caused the earthquake
And i can tell by the way you've been looking at me
You've got something to say
Use your words baby
You start thrashing and shaking
i'm losing the ground underneath When you act crazy like this
it makes it hard to resist
letting these holes swallow me How can you do those things you do?
And you can still sleep at night
I'd never do those things to you
no where near it
not quite No more alibis
I'm done with all your lies.
Come Clean
Come Clean
set yourself free You've got us in a bind
(when you act crazy like this)
I'm not that blind
(it makes it hard to resist)
Come Clean
Come Clean
(letting these holes swallow me)
Let me be. How can you do those things you do?
And you can still sleep at night
I'd never do those things to you
no where near it
not quite How can you do those things you do?
and you can still sleep at night
I'd never do those things to you
no where near it
it's not right
