## **Do Right**

## Incognito

Do right, do rightEvery time I say Come closer my dear I need you to be by my sideAnd every night I feel You're driftin' away Is there something You're trying to hide?I can tell what it means That look in your eyes 'Cos I've seen it before And it holds no surprise(Do me right) You've been holding me tight But your mind's on the new girl in townNow you know that you're lying And there's no use denying 'Cos this is the time, babyDo right (Baby do right by me) (Just want you to) Do right Baby do right by meBop ba dop bop ba dop bop ba dop (Hey) Bop ba dop bop ba dop bop ba dopAll that I need from you Is that comes straight from the heart You have to be cruel to be kindAnd if I should lose you now I may hurt for a while But I'll leave all the sadness behindLife's not always The way that I want it to be But given the choice I would rather be free(Do me right) You've been holding me tight But your mind's on the new girl in townNow you know that you're lying So there's no use denying This is the time, babyDo right (Baby do right by me) (Just want you to) Do right Baby do right by meBop ba dop bop ba dop bop ba dop (Hey) Bop ba dop bop ba dop bop ba dopDo right (Baby do right by me) (Just want you to) Do right
