Stranger

MOTHXR

I'm not a stranger it's just a strange land
It's getting louder, I leave when I can
Danger here is so quiet
Water here is the fire
Stranger is the fire
Water in the nightIt's in me / it's in you too
Only she can know me
But we haven't met before
I'm feeling (feeling)
She think she know me
I don't give a fuck at allI let them all in, they all want to stay
I'll tear it all down if that's what it takes
The danger here is I'm higher
Falling further to find it
Stranger in the fire
Lay with me tonight(Alt last lines of 2nd chorus:)
She think she know me
I don't think she know at all
