

Say It's Alright Joe

Genesis

Say it's alright Joe
I need another drink
To blow on the glass
So I know I'm alive Play me a song Joe
To fill the hours till morning
Then never again will I bother you
Ooh, build myself a tower No way in, no way out
Then my friends can visit me
Once in a while Say it's alright Joe
I need some reassurance
You never know what
You might find in the night Ooh, I'm just a busy bee
Still alive in my hive
I'm looking for some other world
To dream out my dreams There were kings who were laughing in the rain
And they told me I'd come here to lead the parade
And the colors were changing, the sky was in ruins
The lights were all shining on me and on you
Oh, shine on Say it's alright Joe
The night will soon be over
And nothing and no one
Will ever know Open my eyes Joe
I'd like to see the daylight
The clock on the wall says
It's time to leave Never seen the same face twice
Never walked the same way
The little love that I have known
I keep to myself If there's a fire it's asleep in my bed
I must leave it to burn till it burns itself out
Catch as you can I'm not staying here long
I'll be coming back early or never at all
Shine on
