

More to This Life

Lex de Azevedo, Kenny Holland & Mason D. Davis

I still remember,a story untold
A boy dreaming bigger than his own
Going through memories and the pictures on the wall
Searching for myself in my own way

There's got to be more,more,more to this life
There's got to be more
Than just what we see
There's got to be more,more,more to this world
There's got to be more to you
There's got to be more to me
There's got to be more
Than just what we see

Shaping a journey,beneath the haunted soul
Guided by feelings so alone
Chasing all I ever wanted,a man with passion has no conscience
We can lose ourself finding our way

There's got to be more,more,more to this life
There's got to be more,than just what we see
There's got to be more,more,more to this world
There's got to be more to you
There's got to be more to me
There's got to be more

I used to tell myself I dont know how I ever could
But who could tell the walk through hell would bring me back to good
Some are just born out of focus
Pained and too afraid to notice
This is me and I can finally say

There's got to be more,more,more to this life
There's got to be more
Than just what we see
There's got to be more,more,more to this world
There's got to be more to you
There's got to be more to me
There's got to be more

Than just what we see
