

# Kiss My Eyes (Unreleased Reggae Version)

Bob Sinclar

Over  
Come over  
Over  
Come over In the dark the dance begins and night starts to ?  
Feel the beat of extasy inside your soul  
Something hard  
And make believe that love is real and sense is state control  
Let's be dangerous if only for one romance Come  
And kiss my eyes  
Come  
And kiss my eyes  
Over  
Come, we're over, come  
Over  
Come, we're over, come  
Over  
Come over  
Over  
Come over In the dark the magic spins and we forget the day  
Feel the rush of ? inside your soul one to one  
Now take a chance the love is here and love is all we know (we touch and want to know)  
Let's be dangerous live only for the moment Come  
And kiss my eyes  
Come  
And kiss my eyes  
Over  
Come, we're over, come  
Over  
Come, we're over, come  
Over  
Come over  
Over  
come over Come uhhh
