

Tortuga Bay

Running Wild

Man or boy, we'll fight all as one
Bending the rules, it's the call of the wild
Last resort to be shot down in pains
Playing your very last card
Hoist up the mainbrace and fasten the sails
Crows nest is screaming for shore
Ready the rum that is stored in the hold
Bringing what we need and more
Where the streets have no name
Where the devil's in all men
If you knew what was slain
Pay or flee in Tortuga Bay
Fight to death, games that men play
Flashing of steel and the clash of the sword
Last breath, the kill of the day
Proving what all men must fear
Hoist up the mainbrace and fasten the sails
Crows nest is screaming for shore
Ready the rum that is stored in the hold
Bringing what we need and more
Live by stealth, cover your track
Enemies scuttled but who needs to see
No escape, knife in your back
Flee in from Tortuga Bay
Hoist up the mainbrace and fasten the sails
Crows nest is screaming for shore
Ready the bras that is bound up in bales
Bringing what we need and more
Where the streets have no name
Where the devil's in all men
If you knew what was slain
Pay or flee in Tortuga Bay
Where survival's the game
Where you fight for your freedom
If you knew what was slain
Pay or flee in Tortuga Bay
