How It's Supposed to Feel

Cymphonique

Youre here for me and Im here for you
See youll be with me and ill be with you
So you aint never gotta ask what it do, Oh baby
And youre the only one that I need I dont want nobody new
Thats why they wanna be in our shoes, Oh baby
So as long as youre real. And you feel how I feel
Then Im gonna always be here, Oh baby
You know what I like its like you be reading my mind
We got, we got that stuff thats hard to find
Long as you
Know (x5)
Know, know
Know (x7)
Know, know
Long as you
Know (x7)
Know, know
Know (x7)
And I dont care what nobody says
Cause when its real only when its real this how its suppose to feel
And I dont care what nobody says
Cause when its real only when its real this how its suppose to feel
See you dont care what they, say I dont care what they say
Go ahead and let em hate, Oh baby
And baby well be straight, yeah baby well be straight
Cause we wont let em get in our, Oh baby
And I cant even front shawty, shawty
You got exactly what I want shawty, shawty
The word Forever sounds good dont it, dont it?
I promise you wont ever be lonely, lonely
Long as you
Know (x5)
Know, know
Know (x7)
Know, know
Long as you
Know (x7)
Know, know
Know (x7)

And I dont care what nobody says
Cause when its real only when its real this how its supposed to feel
And I dont care what nobody says
Cause when its real only when its real this how its supposed to feel
