Aerie

Comecon

Call ages of extortion
Hail champions of conversion
Sail mountain ridge and ocean
Fall pounce on every portionRule demon over supplier
More ravenous extraction
Your indigenceour surfeit
Tool scoffing democration ClawsAll over the world the carcasses of
Cultures drowned in civilization
Crawl over the world our cheap seductive
Virulent commodificationLords secular commandments
Their tyrants our contractors
Heir mortgage all improvement
Force assests turned to outlet ClawsAll over the world our godly politics
Of friendly intervention
Crawl over the world our avid kindness
And exorbitant pretentionsAll our self-development and
Counterpolar under-education
All our cardio-vascular expenditure
For their infectious deprivation
