

What I Didn't Do

Steve Wariner

I didn't cheat, I didn't lie
So her leaving took me by surprise
Just a note on the table
Saying we're through
At first I went crazy, so it took me sometime
But I finally read between the lines
It's not what I did
It's what I didn't do
I didn't tell her, each day I loved her
I took it for granted, somehow she knew
I didn't hold her, when she needed a shoulder
It's not what I did, it's what I didn't do
Now it's easy to see, why her love died
She was planning her nights by the TV guide
She needed me with her
More than I knew
I was too busy working, getting ahead
When I should of been home loving her instead
It's not what I did
It's what I didn't do
I didn't tell her, each day I loved her
I took it for granted, somehow she knew
I didn't hold her, when she needed a shoulder
It's not what I did, it's what I didn't do
Oh, it's not what I did, it's what I didn't do
