

All or Nothing

State Champs

If I forget where I am when I wake up, I close my eyes
Sometimes it's better to hide the emotions and stay inside
The postcards on your walls
I left them blank because they don't exist at all
You moved on, and that's common sense It might be the way that you're always staring at me
If I stay or if I go and risk everything
She said it's all or nothing
All or nothing
A day with no ending is what this is like
You know, we may be pretending but we've still got tonight
She said it's all or nothing
All or nothing
I can't remember a day I was patient and not afraid
To be persistent, but now I can't resist it
And I won't wake up to see that day because
The postcards on my walls
Say what you mean to me, but always seem to fall
You moved on, and that's common sense
It might be the way that you're always staring at me
If I stay or if I go and risk everything
She said it's all or nothing
All or nothing
A day with no ending is what this is
