Needin' you, wonderin' what to do

Baby, I've been away

And even so, maybe I should go

Is there nothin' that you wanna say

Just keep it nice, baby what's your price

Cause it looks as though I have to pay

For something clean, only some machine

But she never lets it in her way, noGimme love, I need lovin'

Gimme love, gimme love

Gimme love, gimme love, oh yeah

Gimme loveI'm feelin' used, and baby I'm amused

Cause there's something that I shoulda done

Like take my time, or used another line

But I had to get on the run

Can't you see, I don't wanna disagree

There's a chance that we could lose the feel

Let's keep it light, to get us through the night

Do you say you wanna make a dealGimme love, gimme lovin'

I need love, yes I do

Gimme love, gimme love, oh yeah

Gimme loveGimme love, gimme love

Gimme love, gimme love

Gimme love, gimme love

Gimme love, gimme love

I need love, gimme loveGimme love, gimme love, some good lovin'

Gimme love, gimme love, I need love (oh yeah)

Gimme love

Gimme love, gimme love, oh yeah

Gimme love, gimme love, I need love

Gimme love, gimme love, oh yeah

Gimme love

Gimme love, gimme love

Gimme love, gimme love
