Transform

Karlmarx

Do you understand?
It's not too late
Oh yeahHow come everything is not like it used to be?
And how come everything is never the same?
Your head spins turns around a look of confusion
This can't be real, I think it's only a gameThey said there's one way to go and one way to be
Even I can't believe in those wordsThe truth is there is no truth
Mystified can't compute
Well, I said forget about
Everything you've heardYou won't last that long
You won't last that long
You might as well transform
You won't last, you won't lastHow come everything is not like it used to be?
And how come everything is never the same?
There you wanna, gonna get first time, last place
Nothing stays the same here including your nameI've seen it all twice before, they try to be original
Disappoint the way of the worldThe truth is there is no truth
Mystified can't compute
Well, I said forget about
Everything you've heardYou won't last that long
You won't last that long
You might as well transform
You won't last, you won't lastOh yeah, mama
Be your right man that's the truthHey, hey, hey, hey, hey, hey
Hey, hey, hey, hey, hey, heyWhat's the meaning?
You all must be dreaming to want the meaning of life
I heard you screaming to know the meaning
To know the meaning of lifeYou won't last that long
You won't last that long
You might as well transform
You won't last, you won't lastYou won't last that long
You won't last that long
You might as well transform
You won't last, you won't lastYou won't last that long
You won't last that long
You might as well transform
You won't last, you won't lastYou won't last that long
You won't last that long
You might as well transform

You won't last, you won't last
