

# Wonderful Place

N.E.R.D

[Verse]

Damn, it's setting in now (so high)  
'cause cartoons are turning into real life  
Lemons and limes are fighting  
Fighting over straws  
Like they were oil filled pipes And why's the sun writing this song  
And why is this funny to me  
All of a sudden the mouse comes along  
And what he sings brings harmony[chorus]  
You may not understand  
Why there's a smile on my face  
It's 'cause this world could be  
Such a wonderful place 'cause some of these companies  
Two-thousand began a race ??  
But not me man  
I see a wonderful place  
The world's a wonderful place My soul's in my smile  
Don't frown  
Just get up get up Look at the birds  
Look at the bees  
Look at the skies  
Look at the seas  
It's a wonderful place Look at the planes  
Look at the cars  
Look at the sun  
Look at the stars[verse]  
The wallpapers moving  
My arms and my legs leave  
A blur when i swipe  
Sap is just oozing  
The trees say "smoke blocks the sun"  
So for them it's just night The seven eyes look in through the clouds  
And why is that funny to me  
And here comes the mouse singing loud  
And what he sings brings harmony[chorus]
