

Quartermoon

Brittany Cairns

There was more than a spark,
when you called my heart
With the way that you said my name.

Now here we are,
Guess were ridden in the stars
It's a love that I can't escape .

You got away with your words, got me tongue tied,
And everything feels so right.
But I've been told that together forever
Is something, that might only last tonight.

So long as there's room for two,
Under this quarter moon.
All that I wanna do,
Is make it be, me and you.

Cause I got nothing, I got nothing
Nothing without you. (X 2)

~~~~~

Caught a case of the chills  
Can't help but spill  
My thoughts when your hands in mine.

From my hopes to my fists  
You know everything I feel  
Every corner of my mind.

Well, I'm on the edge of my seats  
Trying to see how, far we can make this fly.  
But I've been told that together forever  
Is something, that might only last tonight.

So long as there's room for two,  
Under this quarter moon.  
All that I wanna do,

Is make it be, me and you.

Cause I got nothing, I got nothing  
Nothing without you. (X 2)

La la la la la (X 3)  
Woah-o

La la la la la (X 3)  
Woah-o

So long as there's room for two,  
Under this quarter moon.  
All that I wanna do,  
Is make it be, me and you.

Cause I got nothing, I got nothing  
Nothing without you. (X 4)
