

# 2012 The Demise of the 5th Sun

## Scar Symmetry

Pinnacle of evolution  
The end of linear time  
Progress or termination  
Cosmic ray mutationIt's the question that burns inside  
Will we perish or rise with the tide  
When the waters of consequence  
Comes rushing forth?For the lines on the fractal wave  
Fits the course of history  
They're created to work as one 'til the endA dimensional shift  
Leap in consciousness  
Or a dire destiny  
Asteroid fatality  
It's the question that burns inside  
Will we perish or rise with the tide  
When the waters of consequence  
Comes rushing forth?For the lines on the fractal wave  
Fits the course of history  
They're created to work as one 'til the endAt a time when terrestrial  
And galactic grids align
