Snow

Emiliana Torrini

You won't believe what I just found out
She's getting married on the fifth time 'round
Leaning on my favorite side
And I wondered where you are and realize
Something is painted in the snow that you'd like
Finally, I'm going all sane
Wanna tell you something
We last for long
Well, we've sometimes gone astray
But I can't care for nothing, no way
And I hope again to live this life
Just to see you again before I die
Yes, I hope again to live this life
To see you once more before I die
And see you before I die
