Blood On The Motorway

DJ Shadow

And now, eternityBe still now
I am with you
I am deep within you
You are at peace
You cannot be harmed
You will not sufferBreathe deeply
Breathe in the healing love of the universe
And breathe out the sickness which has taken you
I am with youIt's easy, it's like breathing
It's like a heartbeat, it's easyHave not betrayed your ideals
Your ideals betrayed you
What are you gonna to do?Your eyes will not close
Your tongue barely speaks
But I can still feel youI can still feel you
So come, come relax
Grin, let the changes in
Come on, come relaxGrin
Let the laughter, let the laughter, let the laughter begin
Well come and relax, grin, let the changes inGrin, let the changes in
Come on, come relaxTime is done
The sun has gone
It's too late
Eternity has come
