

Eat Liver!

Laibach

(Liver liver liver) We need to take and deliver
Liver, liver, liver
We need to take and deliver
Steal and deliver
Let's steal and deliver
Go, baby, go
Stand and deliver Wanna do it now, it's time for the show
Smell it in the air, it's time for the show
Revolution
To deliver
Wanna do it now, it's time for the show
Everybody's here, let's lose control
Revolution
We deliver Let's make some noise, (?) in this hall
And dance to the rhythm, of the Devil's call
We know what we want, we've been there before
When we get there again, we will stop no more
Nevermore (Liver liver liver) There are songs in my mind, they are never gonna die
There are visions in my head, they will always make me high
(?)
I'll deliver We keep following the line, but remember in the end
There are statements to be said that we need to understand
When they come
And deliver Let's make some noise, (?) in this hall
And dance to the rhythm, of the Devil's call
We know what we want, we've been there before
When we get there again, we will stop no more
Nevermore (Liver liver liver) Liver, liver, liver
We need to take and deliver
Liver, liver, liver
We need to take and deliver
Steal and deliver
Let's steal and deliver
Go, baby, go
Stand and deliver Liver, liver, liver
We need to take and deliver
