

Yes I Can

James Cleveland

So they say that a man
Can't live in this world
If he's wearing his heart on his sleeve
I canAnd they say that a man
Cant understand
What a woman needs when she cries
I can, I canAnd I can see you standing in the yard
Tending the roses in your garden
The sun is shining through your cotton dress
And I will freeze this moment here in time
I could live forever in your garden, oh yes
Yes I canThe fool doesn't know
What he's missing the most
It's a bitch and a place to be in
Here I amHow would I know
I could give up the ghost
And still hold all your dreams in my hand
Here I am, here I amAnd I can see you standing in the yard
Tending the roses in your garden
The wind is blowing through your golden hair
And I will freeze this moment here in time
I could live forever in your garden, oh yes
Yes I canAnd I can see you standing in the yard
Tending the roses in your garden
The sun is shining through your cotton dress
And I will freeze this moment here in time
I could live forever in your garden, oh yes
Yes I canAnd I can be your man
Yes I can
