Oh My God

Hit the Lights

This place feels like HellYou pray for someone to save your heart
It was ripped from Heaven and torn apart
You're breaking your neck, kid
To keep your head above the fire
But you'll burn insteadOh my God, I've found Hell in you
Oh my God, I've found Hell in youOh my God, I've found Hell in you
Oh my God, I've found Hell in you
