Alphabet Town

Elliott Smith

Alphabet city is haunted, Constantina feels right at home
She probably won't say, "You're wrong"
You're already wrong, you're already wrong
And you threw up whatever she shot downSaid, "Show me around this alphabet town"
Said, "Show me around"There's a name you keep repeating, you got nothing better to do
You're with someone who'll hear you say it and just nod by
Her hand on your arm, her hand on your arm, she put her hand on your arm
Told you her name, you can't pronounce itI'll show you around this alphabet town
I'll show you around this alphabet townI know what you are, I just don't mind
I won't say you're wrong, I know what you want
And it's what I want, so let's go out
I'm ready to go outI'll show you around this alphabet town
I'll show you around this alphabet town
