Returnal

Oneohtrix Point Never

Another silo full, another dark dawn
Bending the air, love is so small
Visualize dark thoughts it was in a dream
Internet as a self-atomizing machine
I designed it, reset, she's the cure
Underground, search for more
Returnal - You've never left, you've been here the whole time
Returnal - You've never left, you've been here the whole time
Another silo full another dark dawn
Bending the air, love is so full
My desire to see the light, my desire to be pure
Underground I visualize sighing ocean dream
Returnal - You've never left, you've been here the whole time
Returnal - You've never left, you've been here the whole time
